📍 #5 Caramcam District, Bislig City

A 19-year-old college student at De La Salle John Bosco College with a growing foundation in web development and programming. I know my way around HTML, CSS, JavaScript, Java, SQL, and Python — but I'm still learning and improving every day. I'm patient, persistent, and not afraid to ask questions when I don't understand something. I follow instructions carefully, take my time to get things right, and show up on time. This CV is prepared for academic and future internship purposes.
